## RIOTING RESUMED AND WARSHIPS ARRIVE MAKINO ET AL ARE NOT FOR STRIKES

### Officials Object To Circuit Courts

**Breckons and Stackable Want To Be Tried In U. S. District Court**

Three of the United States officials who are named as defendants in the \$10,000 damages suit brought by Lee Let, the Chinese merchant, object to going to trial in the circuit court of the Territory. The three defendants named in the suit brought by the attorneys for Lee Let are United States District Attorney Breckons, Collector of the Port Stackable and his deputy R. A. Taylor. The damages suit was brought against them on the ground that they forcibly entered the premises of Lee Let to search for contraband opium which they did not find.

A petition for the removal of the case from the jurisdiction of the courts of the Territory to the United States District Court was placed on file this morning. In the petition it is alleged that the action taken by Breckons, Stackable and Taylor was taken in connection with the enforcement of the revenue laws of the United States and that the alleged offense comes properly within the jurisdiction of the United States court.

### CITIZENSHIP HIS THEME

**ROOSEVELT TALKS TO VAST AUDIENCE**

**Striking Points Of His Address In Paris Today**

PARIS, Apr. 23.—Col. Roosevelt's address on "Citizenship in a Republic" was delivered today at the famous Sabonne. Every member of the French Cabinet was present, and a great many notables were in the audience. Mr. Roosevelt was given a most enthusiastic reception by the student body, and the telling points of his address were punctuated by cheering. Mr. Roosevelt's address in part follows:

A PHOTOGRAPH OF ROOSEVELT TAKEN WHILE PRESIDENT.

"With you here, and with us in my own home, in the long run, success or failure will be conditioned upon the way in which the average man, the average woman, does his or her duty first in the ordinary, everyday affairs of life, and next in those great occasional crises which call for heroic virtues. The average citizen must be a good citizen if our republics are to succeed. The stream will not permanently rise higher than the main source; and the main source of national power and national greatness is found in the average citizen of the nation. Therefore people and of devotion to great ideals. You and those like you have that the standard of the average citizen received special advantages; you

sen is kept high; and the average cannot be kept high unless the standard of the leaders is very much higher. "It is well if a large proportion of the leaders in any republic, in any democracy, are, as a matter of course, drawn from the classes represented in this audience today; but only provided that those classes possess the gifts of sympathy with plain people and of devotion to great ideals. You and those like you have that the standard of the average citizen received special advantages; you

### Strike Prediction Branded False

**Makino, Negoro, Tasaka And Soga Sign Statement To Bulletin**

The following emphatic denial of the article in this morning's Advertiser, predicting another plantation strike through the efforts of Makino, Negoro, Tasaka and Soga, now serving a ten months' sentence, was sent to the editor of the Bulletin this morning, over the signatures of the four men:

Honolulu, County Jail, April 23rd, 1910.  
To Editor Evening Bulletin:—We were surprised this morning when the Advertiser was shown to us by Mr. Asch, the jailer, in which appeared a statement to the effect that we were "IN TOUCH" with a movement looking for a strike on a large scale in plantations of the Territory. We want to state that it is absolutely false that we are "IN TOUCH" with any movement outside. We do not know that a labor organization is started anywhere in the Territory. We know that our sympathizers are not planning anything of the kind. It is true that we have a large number of visitors on Sundays, but then our conversation is confined to the exchange of friendly sentiments and feeling. We have not heard from our many visitors anything about the alleged labor organization or the alleged strike.

The alleged statement may be TRACED to the same SOURCE whence emanated the threatening UNSIGNED LETTERS TO JUDGE DE BOLT and MR. KINNEY just before the end of our trial, and the statement that we were encouraging lawbreakers when our appeal to the Supreme Court was about to be decided. As these statements were untrue and intended to injure our case, so the statement which appeared in this morning's Advertiser is undoubtedly false and only intended to misrepresent and injure us.

Yours Respectfully,  
(Signed) F. K. MAKINO,  
M. NEGORO,  
Y. TASAKA,  
Y. SOGA.

### Warships To Quell Rioters

PEKING, Apr. 23.—Reports received here today show that rioting has been resumed at Changsha, where the anti-foreign outbreak first started. The United States cruiser Cleveland and other foreign warships have arrived at Hankow.

### SIMPLE SERVICE FOR TWAIN

NEW YORK, Apr. 23.—Extreme simplicity marked the funeral services held for the late Samuel Clemens. There was no singing during the service and no pall bearers. The sermon of Dr. Van Dyke was brief, but a most impressive tribute.

### T'AO GOES EAST

SAN FRANCISCO, Apr. 23.—Prince Tsai T'ao inspected the military post at the Presidio this morning and started East this afternoon.

VANCOUVER and Bellingham capitalists have undertaken the development of the hardwood timber resources of the Fijian Islands on a large scale, the project involving the establishment of a line of sailing craft to operate between Vancouver, this city and Suva, carrying British Columbia fir and cedar to the islands and bringing return cargoes of hardwood. A syndicate composed of J. S. Emerson of Vancouver, George W. Loggie of Bellingham, J. Ward Bell of Victoria and J. Warren Bell of Suva is behind this industrial and shipping undertaking. A large tract of timber land in the Fijian Islands, together with the largest sawmill there and its logging equipment, has already been purchased, and operations are to be immediately initiated. Besides exporting British Columbia lumber to the Fijian, where yards will be established, it is the intention of the company to ship lumber from here to the Solomon and Samoan groups, where distributing depots will be located. From the Fijian the vessels of the company will return to this coast with hardwoods cut in large dimensions, for manufacture in British Columbia and Puget Sound. There will be a general distribution depot for these woods at Seattle, and a mill will be erected at Vancouver for the manufacture of the Fijian hardwood into sashes, interior finishings, veneers, etc.

### FILIPINO LABORER HAS SMALLPOX

**Asia From Orient Was Held At Quarantine Island**

Two Filipino laborers who took passage on the Pacific Mail steamer Asia at Hongkong, and destined for the plantations on Hawaii, were stricken with smallpox shortly after the vessel left the Chinese port.

One case is pronounced by Surgeon Thompson as a light one and the man was sent ashore at Yokohama. The Asia arrived off the quarantine at 10 o'clock this morning, but the Federal quarantine officers upon making a hurried examination, restricted the boarding of the vessel to but one official connected with the several branches of the service.

The Asia brings about nine hundred tons of freight for the port. There are four first class passengers to leave the ship at Honolulu.

In the steerage, the Asia brought 26 Filipinos, 7 Chinese, 12 Japanese and one Hindu.

The trim Pacific Mail liner met with some of the rough and tempestuous weather encountered by the transpacific Dix. The vessel, however, steamed along without a great deal of hindrance from the elements.

The Asia did not go into quarantine for a fumigation during her stay at the port. The first class passengers to the number of seventy who are destined for San Francisco, have been allowed to come ashore.

The steerage passengers will be detained at the local quarantine station for a brief period.

Among the Honolulu passengers are C. H. Dickey and L. A. Dickey, who have been absent on an extended tour of the Far East.

Inasmuch as the Asia has already served eleven days of her allotted quarantine at sea, the vessel will hardly be denied pratique at the San Francisco because of the infection found on board prior to her arrival at the last Japanese port of call.

The vessel will sail at 6 p. m.

### M'CANDLESS PAYS \$15,000 FOR LAND

L. L. McCandless has purchased from the C. M. Cooke Estate a large tract of land at Waimalu, the deed having been filed in the Bureau of Conveyances today. The land acquired by McCandless is 455 acres in extent, and he pays for it the sum of \$15,000.

Pope ratifies consistory nominations and Abbot Wehrle is made bishop. Musicians differ in opinion regarding Mendelsohn's interpretation of old masters.

### CITIZENS SPEAK ON FEDERAL SITE

**Condemn Move To Secure Change In Building Location**

Following up the question as to whether a change at this late hour should be made in the location for the new Federal building or whether this magnificent structure should be erected on the Mahukua site, chosen by the majority of the citizens of this city, or built on the Irwin lot, the following members of the community have this to say about the matter:

Consul W. Potenhauer—The matter has been settled long ago, and it is now too late in the day to ever think of changing its location.

George Rodlek—The Federal building would undoubtedly look better on the Irwin lot from an architectural point of view, but as the site has been selected, no change should be made at this late date.

Dr. Bruce McV. Mackall—I voted for the Mahukua site, and I see no reason to change my opinion. It is too late in the day to begin making suggestions as to changing the location for this new Federal building.

T. G. Thrum—The matter having been settled, I prefer to say nothing on the subject.

A. R. Gurrey Jr.—My idea is this: We should have a civic center, but as the Mahukua site has been selected, and the city gone on record as regards having chosen this site, we should go on and build and not delay matters any further.

J. A. R. Vieira—I never had much preference either to one or the other of the two sites. I do not think a change ought to be made now that a site has been selected. This matter should not be brought up again, as building operations will only be delayed.

### GRACE IS SEEN DOWN AT PUULOA

**Posse Of Detectives Out On Hunt For Negro**

A. Lewis Jr.—The question of the Mahukua site should for the best public interest of the Territory be considered a closed one. The elements of good faith should be a guide to the public as a whole and to all persons having any interest in the matter. The community, through its commercial bodies and by popular expression, has by a majority, although a divided vote, set its stamp of approval on the Mahukua site. There are many problems which are to be solved by this community and by the officials administering its affairs which require earnest consideration. The energies of all should be devoted towards the solution of these problems and avoid the vacillating spirit of opening up questions once declared to be settled. Our position both at home and abroad is weakened every time a change of front is made upon a policy once declared. Unless graver reasons than those which present themselves in the present situation require such a change.

E. I. Spaulding—I have always been in favor of the site for the Federal building facing Union Square. The postoffice should be retained in its present location, which could not be bettered, considering the Oriental population and convenience to the business men. I have not considered the Mahukua site a proper place for it, unless the whole lot could be purchased. As to the policy of opening the question at this time, I do not care to express an opinion, as it naturally would be considered biased on account of my close connection with the Irwin interests. The general public should decide this for themselves.

L. Tenney Peck—The matter has been settled, and it would be breaking faith with the community and those who have made large investments in sites and street openings on the strength of the Federal building being erected on the Mahukua site.

Dr. H. Bicknell—I prefer the present location and am quite satisfied with the Mahukua site in every way. Building operations should not be delayed a minute longer than is absolutely necessary.

### GRACE IS SEEN DOWN AT PUULOA

**Posse Of Detectives Out On Hunt For Negro**

At half-past eleven this morning a man telephoned in from Puuloa and informed Chief of Detectives McDuffie that he had seen Anderson Grace near the station, and that the negro was making toward Moanalua. The information appeared to be straight enough, and the man who sent the message says that he knows Grace and that he was sure that it was the much-wanted man.

McDuffie, in company with Deputy Sheriff Fernandez of Ewa, started off at once in an automobile for Puuloa. Five of the detective force also went in the party. The sleuths were all disguised in stevedores' clothing. Apapa made an ideal hideout for Grace, and his facial expression even seemed changed.

The party hope to pick up the trail of Grace and run the escaped murderer to earth some time today. If Grace shows any fight he will be filled with lead, and then there will be no further trouble with him.

If the negro is not captured before 7 o'clock tonight, a posse of civilians will take up the hunt, and will scour the districts in which the man is supposed to be hiding.

The detectives were out till 3 o'clock this morning, but no trace of the negro was come across. McDuffie and his staff have procured stretchers, which are set up in the outer-detective office. The staff snatch a few hours' sleep during the day and are practically on duty all the time.

No further robberies of food or milk have been reported in the police, and it appears to be pretty well established that Grace has a food supply.

(Continued on Page 2)

### TRANS-PACIFIC RACE DATE CHANGED

**Yachts To Leave San Pedro On July Ninth**

L. M. Votlesen is in receipt of a couple of letters from Coast yachtsmen, and in one from Commodore Smith of the South Coast Club, the news that the transpacific yacht race will not start on July Fourth is the most important. The race will start at San Pedro on July 9, and at the present moment five yachts are entered for the event.

The yachts—the Siwash and the Sweetheart—are to represent Los Angeles; the former is sloop rigged, 47 feet overall. The latter is 53 feet over all and is schooner rigged.

Commodore R. C. P. Smith is the owner of the Sweetheart, and he feels confident that his craft will go close to winning. The Winsome, which belongs to Mr. Hay is also entered for the race, and these boats together with the Gwendoline II and the Hawaii, make a very good fleet of racers.

The date for closing of entries has been extended till June 1, and as the boats that at least four more yachts will be entered for the transpacific event.

The reason why the date of the start of the race has been changed is first, because the Jeffries-Johnson fight is attracting so much attention that very little space in the papers could be devoted to boosting the yacht race, and secondly because the yacht clubs have arranged a cruise for July 2, 3 and 4. The members of the crews of the transpacific racers all want to take part in the cruise in home waters and the fact of the big race being put off till July 9, enables them to do so.

The transpacific race is assured now with five boats already entered, and there is not much doubt that four or five more will also compete. The race will start from San Pedro and will attract the attention of the world to Hawaii.

The Pacific Mail steamer Asia taking the United States mail will be dispatched for San Francisco at six o'clock this evening. The vessel is taking only a few layover passengers. During the stay at the port, the Asia left nearly nine hundred tons of cargo.

There's no accounting for tastes. Even the man who wears side whiskers probably admires them.—Chicago News.

Perhaps a woman tells secrets because she is afraid of forgetting them.

### South Pole Left To British

WASHINGTON, D. C., Apr. 23.—The scheme for an American expedition to the South Pole has been abandoned for this year. This puts an end to the much-advertised idea of a race to the South Pole between British and American explorers.

### LANDY BOXED, DIED TODAY

BOSTON, Apr. 23.—Max Landy died here today following a boxing match with Joe O'Brien last night.

### DANIEL BETTER

DAYTONA, Fla., Apr. 23.—United States Senator Daniels left here today for his home in Virginia. Senator Daniels suffered a slight stroke some time ago and has sufficiently recovered to return home.

THE SCHOONERS Robert Lewers, from Honolulu, and Gamble and Spokane, from coastwise voyages, arrived in tow, all three of the sailers coming into Port Townsend in procession behind the powerful tug Tye. The Gamble and Spokane proceeded to Port Gamble for cargoes, while the Lewers will proceed to Winslow for overhauling and minor repairs before loading again.

AMID THE salutes of the government craft stationed at Mare Island, the collier Prometheus, the largest vessel ever built at the navy yard has sailed from Vallejo for its first cruise, going first to Red Rock to adjust its compass and later to California City to coal.

THE AMERICAN steamer Minnesota arrived at Yokohama on April 17 with an 18 foot hole in its bottom and having lost its rudder. It will proceed to Hongkong for repairs. The Minnesota is owned by the Great Northern Steamship company, and sailed from Seattle for Yokohama and Hongkong on March 22.
